Position Listing – Construction Technician II (Full Time)

Job Description:

- Oversee contractor activities and ensure compliance with project specific plans and specifications
- Maintain project documentation including producing a daily report, computing quantities associated with pay items and materials, and collecting documentation from contractor
- Communicate effectively with the contractor, client, LSE staff, and other stakeholders
- Assist in the coordination of surveying and testing needs, or perform basic surveying or testing as qualified
- Willingness to work extended hours, including possibly nights and weekends depending on project and contractor schedule
- Flexibly shift from job-to-job according to team needs
- Mentor and advise construction technicians within the company with less experience

Required Qualifications and Skills:

- High school diploma
- Technical degree/certificate and/or 5+ years of relevant industry experience
- Excellent (English) reading, writing, and speaking abilities
- Ability to measure, compute, and document lengths, areas, volumes, and yields
- Familiarity with and ability to interpret project plans, MDOT Standard Specifications for Construction, MDOT Construction Manual, and other related documents
- General knowledge of construction activities including, but not limited to, earthwork, bases, drainage features, HMA pavements and treatments, concrete, structures, incidental construction applications, and materials
- Good decision making and problem-solving skills
- Ability to work independently and with a team with a willingness to learn
- Physical capabilities including lifting up to 50 pounds, walking up and down slopes, stand for extended periods of time
- Valid driver's license with good driving record

Desired Qualifications and Skills:

- Civil Engineering Technology degree or equivalent experience
- Certifications in various MDOT qualifications including but not limited to MCA/ACI Concrete Testing Level 1, Density Testing, Aggregate Testing, HMA Level I Testing, HMA Level II Testing, EGLE Construction Stormwater Operator
- Experience using Field Manger / Field Book, AASHTOWare Project and Microsoft Office
- Previous experience with MDOT, local agency, or consultant in the transportation or construction field
